

Breaking Down Musical Borders: John Dellroy Band Mixes Genres and Crosses Countries

With songs like 'She' and 'A New Life has Begun', the John Dellroy Band is redefining 'alternative' so audiences dance to sounds of rock, folk, country and folktronica.

When the John Dellroy Band cranks it up on stage, audiences are treated to a melodic onslaught. "We rock, but with folk and electronic influences, and the melodies are designed to let you hum along immediately and even sing with us after you hear the hook just a couple of times," states lead vocalist John Dellroy.

Calling their sound "alternative folk-rock without limits," the John Dellroy Band is unafraid to go from hard-charging rock to a reflective ballad while zooming through a set-list that contains numbers featuring a full range of modern pop styles.

Their first full-length CD, "A New Life Has Begun," was released in 2013 on Poolman Records. The 11-track album was produced by Thomas Mora and has seen a radio edit of "Time" achieve very strong download action in Austria, including #1 at Musicload and #55 on the iTunes Pop chart.

With their single "She", an impressive collaboration with Grammy® nominated Peter Roberts, a multiple award winning songwriter and producer, the Band had airplay on more than 150 radio stations in the USA. In May 2015 they broke FMQB top 200 charts, with peak position #27 in August, 2015.

After several club gigs in Germany, in 2017 and 2018 the Band had highly-acclaimed open-air performances at Wolkenturm Grafenegg and Danube Island Festival ("Donauinselfest") in Vienna, Europe's biggest open-air event.

Currently John Dellroy Band is working on a new album, again in collaboration with Peter Roberts.

First single outtake was "Burning Desire", released on March 29, 2019.

The song has quickly received airplay in the USA, UK, Germany, Italy, Netherlands and Portugal. In May 2019 "Burning Desire" climbed #13 on international DRT rock charts and in June 2019 the song broke top ten of European Indie Music Charts.

Theirs is a total commitment to music. As Dellroy states, "Life without music is an empty, soulless place."
